

Hazardous Household Waste Collection

On October 14, 2006, New Hanover County Department of Environmental Management, New Hanover Cooperative Extension, UNC-W and the City of Wilmington are coordinating household hazardous waste collection day at the old Cinema across from UNC-W (same location as last year). Improper disposal of household hazardous waste is harmful to our health and our natural resources. Household hazardous waste can pollute our streams, rivers, drinking water, and groundwater. Additionally, this waste can interfere with treatment processes at the landfill and wastewater treatment plants.

If you are interested in helping with this year's event or have questions, please contact Dolores Bradshaw or me. There will be an early shift 8:45-11:45 and an afternoon shift 11:30-2:30. Lunch will be provided. Thanks for your interest and assistance with this worthwhile event which helps ensure proper disposal and recycling of household hazardous waste.
